

VICTOR POLOZOV

Software Engineering Lead

victor.polozov@gmail.com | +972512435197 | <https://www.linkedin.com/in/victor-polozov> | Israel

EXECUTIVE SUMMARY

Software Engineering Lead with 25+ years of experience across systems programming, platform engineering, mobile, and DevOps. Proven leadership in delivering scalable, production-grade solutions in healthcare, education, and compiler tech. Strong academic foundation (MSc in Math) and a decade of CS/SE teaching. Passionate about clean design, mentoring, and cross-domain innovation.

CORE COMPETENCIES

- Software Engineering & System Architecture
- Development (C/C++, Ruby/Rails, C#/F#, etc.)
- DevOps & Infrastructure Automation
- Problem Solving & Performance Optimization
- Project & Team Leadership

CAREER SUMMARY

2018 – now
MedM Inc

Remote

Software Engineering Lead – Platform & Web Systems

- Led architecture and development for backend, APIs, DBs, and web portals
- Scaled cross-functional engineering team 5x while establishing robust engineering practices
- Driving Software architecture and engineering best practices
- Orchestrated integrations with external services: Garmin, call providers (Five9, Twilio), monetization (AppStore, Google Play, Stripe) and more
- Security improvements and audit: security policies, GDPR, HIPAA, etc
- Delivered observability and performance improvements to sustain 100x growth
- **Technologies:** Ruby-on-Rails, PostgreSQL, jQuery, Bootstrap, React, and more

2014 – now
MedM Inc

Infrastructure, DevOps & Security Lead

- CI/CD pipelines with ~200 projects, ~6k build configurations
- Designed scalable cloud deployment workflows, artifact distribution, and infrastructure observability
- Implemented centralized role-based secrets management based on Hashicorp Vault
- Hardened infrastructure security with strict access policies and compliant operations
- **Tools:** TeamCity, Kotlin, bash/cmd, Prometheus, Ansible, Docker, NewRelic

2014 – 2020
MedM Inc
St. Petersburg, Russia

Mobile Client Team Lead

- Organized flexible processes and release cycle: 500 customers with ready-to-go applications for all up-to-date mobile platforms. ~100 custom builds
- Architecture improvements and new platforms support
- Introduced new products: SDK, Linux Hub, IoT hub, FHIR hub
- **Technologies:** C++, Java/Kotlin/ObjC/Swift/C, internal DSLs, SQLite

2014 Lanit St.Peterburg, Russia	Senior Developer Automated translation of MSSQL database code and data into Oracle for a large bank. – Prepared final migration procedure of big database transfer in allowed window, – Automated merging procedure of generated code with manual fixes, – Active development of the translator. Technologies: F#, PL/SQL, T-SQL, sh/cmd
2003-2009 Lanit / Bluephoenix Ltd St.Peterburg, Russia	Compiler Developer – Human-readable “pretty” COBOL code generation, – Minimal footprint Java/JVM code code generation, – DFA and DFA-based optimizations Core technologies: C, yacc, COBOL, Java, C++, JCL, C#.
1999-2014 Lanit St.Peterburg, Russia	Software Engineering Expert / Developer Additional projects in CI/CD, simulations, healthcare and enterprise systems.

EDUCATION

Assistant Professor – Saint-Petersburg State University, Russia, 2006-2015

- Core CS/SE courses: Programming, Formal Languages, and Functional Programming.
- Mentored diploma and thesis projects, guiding students in research and practical applications.
- Curator for the Software Engineering specialty, aligning curriculum with industry standards.
- Student’s conference co-organiser SPISOK, 2011-2014

MS Saint-Petersburg State University, Mathematics and Mechanics Faculty, 1998-2003
Thesis: “Language for semantics analysis and abstract syntax trees transformations”

LANGUAGES

English (Upper-Intermediate), **Russian** (Native), **Hebrew** (Intermediate)
